LANGUAGES

Fluent in English and Spanish

OBJECTIVE

To obtain a job/internship with a company which provides the opportunity to expand my knowledge as a computer science major. Ready to utilize my technical, and problem solving skills.

EDUCATION

California State University, Chico- Anticipated May 2020

Bachelor of Science, Computer Science

RELATED COURSES: Numerical/Parallel Programming, Algorithms and Data Structures, Computer Security, System Architect/Performance, Introduction to Databases, Compiler Design, Embedded Systems Development, Programming and Algorithms I and II

SKILLS/CAPABILITIES

Professional: Type 50-55 WPM, meet deadlines, problem solving, critical thinking, organized, patient, high energy, and safety conscious.

Operating systems: Experience working with Linux, Windows and Mac OS environment.

Technical Skills:

- **C, C++, Python:** Strong knowledge. Worked with Algorithms, and Data Structures functionalities.
- **HTML and CSS:** Strong knowledge at creating front-end services for the users. Currently creating my own personal website supported with Bootstrap toolkit, a front-end Web framework.
- **Swift:** Basic experience in making applications for IOS and watchOS using Xcode.
- **JavaScript:** Strong knowledge. Created a program that gather data from CSV files and produces 2D/3D visuals models to users. Implemented JavaScript functionalities in my personal website.

EXPERIENCE

U'Pick, Chico (Mobile Developer)- Aug 2018–Dec 2018

Responsibilities: Helping U'Pick (a start up company) to develop a new automotive dealership application using C++, C#, .Net and more.

PROJECTS

Personal Website- Jan 2018–Present

Description: Created my personal website with HTML, CSS and Bootstrap. My intentions for creating this website is to show a few of my programming skills related to Web Development and also an easy way to present all my achievements that I've done throughout my college career.
